

SMALL TALK SUMMER WORKSHOP

Stimulate your child's development through music therapy with Aaris Therapy Group's Small Talk workshop! This series of classes is designed to promote the progress of your toddler's language and motor skills with fun musical activities.

◆ What is Musical Therapy (MT) and how does it work?

MT utilizes music, both vocal and instrumental, to promote the development of language, motor, cognition, and social skills, making it particularly beneficial to children who are learning to talk.

Class Information

- Activities include a variety of language and motor tasks, as well as active music-making with instruments.
- A licensed and credentialed Music Therapist, having obtained their Masters Degree from an approved or accredited music therapy program, will be leading the class.
- Children aged 18-30 months and their parent/caregiver are encouraged to attend.
- Cost is \$30 per class
- Space is limited to four (4) children and their parents/caregivers

Two class options for June - August 2018:

Mondays 9:30-10:15 am or Tuesdays 6:00-6:45
